FEATURES
- LED: White light and red LED
- Rechargeable lithium polymer battery (3.7V 600mAh)
- 20x20mm
- Water resistant (IPX 4)
- Low battery, charging and fully charged indicator
- Automatic fully charged cut-off system
- Auto safe mode
- Mode memory function
- 4 steady modes, 4 flashing modes
- Quick release universal bracket fits all round and AERO style bars
- CNC Aluminium heat sink casing

BATTERY CARE
- Keep the light away from fire and combustible materials.
- Do not leave the light on and unattended.
- Do not dismantle the light which will void warranty.
- Unplug the light, charger and cable once the battery is fully charged.
- Do not submerge the battery or the whole light into water.
- Adjust the angle downward to prevent from blinding the oncoming traffic.
- Light may get hot when in use.
- Do not shine directly in the eyes.
- Understand country lighting laws and regulations before use.
- Keep away from flammable objects while charging as this may lead to fire.
- Do not charge over 5V, the battery will result in damage.
- Charging indicator will be on. Unplug the cable after fully charged.
