The intelligent light sensitive system automatically turns light on/off according to environmental brightness.
1. Turn on the light: Press 1s
2. Auto/Normal status: Press 3s
3. Select mode and turn off light
*Sensor has a 30 seconds delay when in well-lit environment before light turns off.
*Max Auto on/off standby time: 250 hrs.

To preserve battery when power is low, the light will enter safe mode with less light output for extra 1 hour.
Safe mode cannot be override.
Recharge battery for maximum performance.
