**METEOR STORM PRO/ METEOR STORM**

**Specification**
- *8 Modes: Boost / Mode 1 / Mode 2 / Mode 3 / Flash 1 / Steady Flash / Day Flash / SOS*
- *Dual Beam Angle*
- *USB TYPE-C Cable*
- *USB TYPE-C Remote Control*
- *Variable Lumens System VLS*
- *Matrix LED display*
- *Lock System*
- *Boost Mode*
- *Light Mode Memory*
- *CNC Aluminium Heat Sink Casing*
- *Quick Release Battery*
- *Water Resistant (IPX5)*
- *Day/Flash Mode*
- *FL-1 Standard*

**Contents Included**
- *Meteor Storm Pro*
- *RB-26 (Handlebar Bracket)*
- *RB-16 (Helmet Bracket)*
- *USB-C (USB TYPE-C Cable)*
- *USB-C RMS (USB TYPE-C Water Resistant Remote Control)*
- *Variable Lumens System VLS*
- *Matrix LED display*
- *Lock System*
- *Boost Mode*
- *Light Mode Memory*
- *CNC Aluminium Heat Sink Casing*
- *Quick Release Battery*
- *Water Resistant (IPX5)*
- *Day Flash Mode*
- *FL-1 Standard*

**Optional Accessories**
- *XP-USB (Wall charger)*

4. Align the battery cover to the point “L” to lock.

**USER GUIDELINE**

Thank you for choosing MOON Meteor Storm series headlight!

- The light is locked for shipment, refer to OPERATION instruction to unlock.
- Please read this manual before using. Please refer to online manual for any update of information.
- The light is not fully charged for shipment, please make sure to charge the light fully before use.

**BOOST MODE**

Boost Mode is the high output mode for daytime riding. Its high brightness LED will heat up the light body while working, that is a high temperate light. A better cooling system is included and you can use them when necessary.

**MINIATURE DISPLAY**

Matrix LED Display is a multifunctional display provides operational information including modes, battery status and charging status.

**DAY FLASH MODE**

Day Flash Mode is the high output mode for daytime riding. Its high brightness LED will heat up the light body while working, that is a high temperate light. A better cooling system is included and you can use them when necessary.

**OVER HEAT PROTECTION**

The overheat protection device can save the bicycle light in a good running temperature condition, so that to protect the LEDs without burning case. If the light is in a high temperature during operation, it will dim the light output.

**CHARGING**

1. Find the USB port under the head of the light.
2. Lift the rubber cover and you’ll see the charging port.
3. If using USB cable, connect it to your computer USB port.
4. If using wall charger, connect it to the wall outlet.
5. Charge time may depend on computer or wall charger.
6. When the battery is fully charged, please unplug the USB cable or wall charger.
7. When the display turns red, it indicates the battery needs to be charged.
8. Keep away from flammable objects when charging.

**TROUBLESHOOTING**

- Understand country lighting laws and regulations before use.
- Do not shine light directly into eyes.
- Do not blind the oncoming vehicles. Always adjust the beam downward.
- Do not shine light directly into eyes.
- Do not blind the oncoming vehicles. Always adjust the beam downward.
